WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Strong east-northeast winds will support critical fire weather conditions across portions of southeast Humboldt, southern Trinity, and interior Mendocino counties Saturday night through Sunday night.
- Critical fire weather conditions and potentially damaging winds will be possible over portions of the San Francisco Bay Area from late Saturday through Monday morning.
- Another strong wind event Saturday night into Monday resulting in extreme fire weather danger.

SOUTHERN CALIFORNIA

- Strong Santa Ana winds will continue today with critical fire weather conditions, and locally damaging winds possible.
- Another potentially moderate Santa Ana wind event is possible Sunday and Monday.

Friday

- A strong Santa Ana wind event will affect much of Southern Region through tonight, with gusty to damaging winds and extreme fire danger.
 - Combined with very dry relative humidity, very critical fire weather conditions are expected
 - Northeast winds 20-35 mph with gusts 50-60 mph generally expected in the prone areas

Saturday-Monday

- A very critical fire weather event is expected for northern California Saturday evening through Monday morning
 - There is a chance that winds will be strong enough to cause damage in some locations in northern California.
 - **This will likely be the strongest wind storm of the fall season and potentially in the last few years**
 - The strongest winds are expected on Sunday across the North and East Bay areas
 - Across southern California, moderate offshore winds (Santa Anas) will redevelop Sunday night through Monday
 - This event will most likely taper off beginning Monday morning, but there is a slight chance this event will extend into Monday night.

Tuesday

- No impacts are expected

Wednesday-Friday

- Another moderate Santa Ana wind event is possible next Wednesday and Thursday.
